

Glenigan

March 2016

Regional League Tables

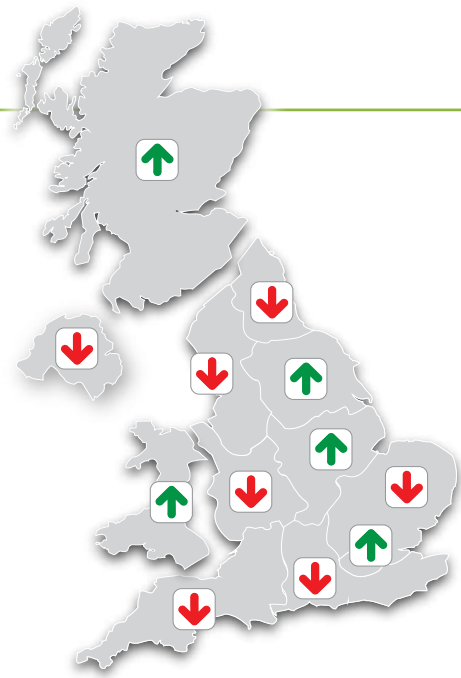

Glenigan league tables are produced from comprehensive UK construction activity data. We capture every planning application and decision, plus thousands of projects that do not require planning. Projects are tracked to completion on site by our team of researchers that make over one million phone calls per year to provide timely, robust data.

Glenigan data is widely used by contractors, materials suppliers and service providers to the construction industry to identify new business opportunities and inform strategic decisions.

League tables included:

Contact us on **0800 373 771** for more details or visit **www.glenigan.com**

Rules for inclusion in the league tables: No contract under £250,000; no schedule of rates; term maintenance or framework contracts although individual contracts within frameworks are included. Contracts are only included at financial close not preferred bidder stage. For more information on how to take part in the league tables email contractsleague@glenigan.com.

The most efficient way to ensure your company's accurate placing within the Glenigan league tables is to submit new contracts that your company has won on a monthly basis.

We have a large number of contractors and consultants who submit data to us, and we are happy to accept information from others.
